

TAKE ACTION IN NYC!

HOW DOES PARTICIPATORY BUDGETING WORK?

It can take a year for a project to get approved.

This gives time for the public to discuss proposals and make good decisions about how to spend money in a district.

All immigrants can propose and vote on projects. Your immigration status and the language you speak does not matter.

Do you want to participate?

Participatory budgeting is an opportunity for you and your neighbors to make life better in your community.

Call 311 to find out how you can get involved in. You can also go to this website: council.nyc.gov/pb
